

Barbara Breitenfellner // **Coded Sleep**

This book contains a selection of works on paper produced by Barbara Breitenfellner between 2006 and 2011. Her artist's silkscreen prints and collages are based on found materials from books and magazines which she combine with engravings of medical drawings found in 19th century encyclopedias, patterns resulting from enlarged pictures of physical processes, or images cut out from naturist and zoology journals.

Contributors: Thibaut de Ruyter
