

## Pieter Vermeersch // **Acoustic Abstractions**

Pieter Vermeersch: *Acoustic Abstractions* offers an in-depth analysis of Pieter Vermeersch's artistic production from 1998 until today, with a special emphasis on his intervention at STUK in early 2006. It contains three essays: Hilde Van Gelder focuses on Vermeersch's thorough renewal of abstract painting today, Paul Cruysberghs addresses the question of the sublime in relation to Vermeersch's work and Stéphane Symons explores - from a Duchampian perspective - the impact of Vermeersch's 'painting on glass'.
