

Susanne M. Winterling // **Space Sounds**

"Surface spaces and sound realms

A diamond into surface space

A record with sounds that portrait spaces, traces: a row of choreographed sounds like a sea breeze in Malmoe, Berlin birds and traffic on a pavilion, angry drumming girls in Shanghai, Virginia Woolf's words in the storm, plankton in mosquito bay under the surface recorded with a hydrophon, Mexican dogs and airplane dynamics and breaking glass

Details that we might take for granted precisely arranged as in life

Are you listening?"
