

Dirk Braeckman & Jan Lauwers // **The House of Our Fathers**

This outstanding volume is the trace of an immersion by Dirk Braeckman in the performance *The House of Our Fathers* by Jan Lauwers & Needcompany at the Kunstfestspiele Herrenhausen, Hannover, 2013. The photographs having passed Braeckman's dark room, the images, often starting from the same negative, start to compose a universe beyond the event's registration. With the boldness of a painter sketching, Dirk Braeckman has set up a series of which this volume can be considered the opening dance.
