

Julião Sarmiento // **Bloodline/Heartline** SIGNED

The artist Julião Sarmiento grew up with a somewhat complicated background. This book is a testimony to his 'real' biological family and his 'other' foster family. The first part of the book; 'Bloodline', has all the photographs the artist could find of his biological family up to his birth, they show persons he often doesn't feel connected to or hardly knows.

'Heartline' has all the photographs he could find of the two people in his foster family. They are close to his heart, far from his blood. The book is signed and numbered by the artist in an edition of 250 copies.
